ABSTRACT

Information on career education activities is provided in this compilation of career education projects. Activities are categorized into six areas: (1) Activities designed to effect incremental improvements in K-12 career education programs; (2) activities designed to demonstrate the most effective methods and techniques in career education in such settings as the senior high school, the community college, adult and community education agencies and institutions of higher education; (3) activities designed to demonstrate the most effective methods and techniques in career education for such special segments of the population as handicapped, gifted and talented, minority and low income youth, and to reduce sex stereotyping in career choices; (4) activities designed to demonstrate the most effective methods and techniques for training and retraining persons for conducting career education programs; (5) activities designed to communicate career education philosophy, methods, program activities, and evaluation results to career education practitioners and to the general public; and (6) projects for development of state plans for implementation of career education in the local educational agencies of the states, under the provisions of Subpart C of 45 CFR Part 160d. Information for each project is arranged according to state and project number, grant or contract number and Office of Career Education team, project director and organization, title of project, and federal funding.
